the stonemakers Pathway Paver range

300x300x60, 300x150x60, 230x115x45

Why you should choose Reformed Sandstone Paving

- Low glare in bright sun
- Durable and hard wearing
- Low permeability, high density
- Texture and feel of natural stone
- Easy to walk on in the summer sun
- Classic, timeless appearance

\$59 sqm
Light Sand & Bluestone
300x300x60

Our Reformed Sandstone is extremely hard and long lasting. Very low permeability means it is very easy to keep clean. Plus it provides a high-grip surface with the added advantage of extremely low glare in the summer sun.

What is reformed sandstone?
Our Reformed Sandstone is a unique type of man made stone which offers the colour, texture and feel of natural stone at an affordable price. It is made by combining several grades of quartzite sand with other aggregates, minerals pigments and binders under extreme pressure.
The result of this process is a product with an original true stone appearance. Its surface has the look and feel of the best quality sandstone, in that it reflects light and also ages in a similar way.
